**At the 09 September chapter meeting we were treated to a talk on the historic Buffalo Presbyterian Church by Pam Brady. She outlined the early settlement of what is now Guilford County. She told of the industrious patriot pastor David Caldwell and how he pastored 2 churches as well as teaching local children in a log cabin school house. For all this he was hated by the British who put a bounty on his head for his patriot convictions. She led us on a brief tour of the church graveyard, which contains the graves of dozens of Revolutionary War patriots**
